## SOME BAD RUMORS

Openly Charged That Some of the State Senators Sold Out

Today It Is Claimed There Will Be an Extra Session—Capitol Amendment Accepted

LIVELY AT FRANKFORT TO DAY

AT FRANKFORT.

Frankfort, Ky., March 18.—The air is rife today with rumors of a sell out in the senate. The Democrats in the house are aroused over the reports and do not hesitate to charge that Democratic senators have sold out in the revenue bill to the national banks.

Speaker Finn, when asked about the situation, said: "The senate has sold out bodily to the national banks, and were we to have an extra session not a lobbyist will be allowed to come on the floor."

Representative Brimley, a member of the conference committee, said: "An extra session is certain, and I want it called late, so the people can get a chance to find out who sold out in the senate. We will wage war on all corporations now, and not one of them will be shown any quarter."

The house and senate agree to leave the method of assessing banks as at present. Both houses agree to accept the Taylor amendment for a capitol.

The bill requiring the union label on state printing was lost.

TWO VETOES.

Washington, March 18.—The President this morning sent two veto messages to the Senate. Both were private relief bills.

FIRE IN NEW ORLEANS.

New Orleans, March 18.—Fire today wiped out the plant of the New Orleans Cotton Seed Oil and Manufacturing company; loss \$50,000.

FRUIT KILLED AGAIN.

Pineville, Ky., March 18.—Another cold spell struck this section last night, and one inch of snow fell. The farmers fear the peach crop is ruined.

RAILROAD INDICTED.

Louisville, March 18.—The federal grand jury here has indicted the I. and N. railroad on three counts for alleged violations of the interstate commerce law in the shipment of corn.

EMBEZZLED \$100,000.

New York, March 18.—Max C. Mayer, confidential manager for Rathbone and Sons, was arrested today on a charge of embezzling \$100,000.

WILL RETIRE.

PENSION COMMISSIONER EVANS WILL GET SOME OTHER POSITION.

Washington, March 18.—There is no longer any doubt that Pension Commissioner Evans will, within the next few months at the latest, sever his connection with the pension bureau to accept from the President a position which will be a substantial promotion, but which has not yet been definitely selected. It is well known that Mr. Evans has the entire confidence of the President and that the latter will not consider the question of his retirement until a position entirely satisfactory to the Commissioner has been provided. No decision has been reached concerning a successor to Mr. Evans, nor will any action be taken until the President is thoroughly convinced that he has found a man of the same high character and sterling worth possessed by the present commissioner in so high a degree.

SENATOR HANNA.

HE WILL ARBITRATE THE SOUTHERN RAILROAD MACHINISTS STRIKE

Knoxville, March 18.—Local machinists are informed that the strike of machinists on the Southern road is soon to be settled, and that no less a personage than Senator M. A. Hanna is to represent their interests in arbitration. Their information is that Senator Hanna and President Spencer, of the Southern, will hold a conference and talk over the difference, and that agreement will be reached by which all the men who went out several months ago can return to work.

A MORNING RUNAWAY.

A man belonging to a farmer named McKinney ran away today at noon and spilled a barrel of vinegar, a barrel of salt and several other articles. The team started near Second and Court and was stopped at the corner of Third and Court, after the mules had broken away from the wagon. The wagon was badly damaged. There was no one in the vehicle at the time they started, and no one knows how the horses became frightened.

## FEAR EFFECTS.

The British War Office Will Delay the Inquiry.

Mistakes Will Be Explained When the War Is Over.

London, March 18.—In the house of commons Sir Henry Campbell-Bannerman, the Liberal leader, moved the appointment of a select committee to investigate the whole commercial history of the South African war, including the contracts for the purchases of remounts, meat and forage and the contracts for freight and transportation, saying that in so doing he was only fulfilling a moral duty and echoing a sentiment deeply felt throughout the country.

The war secretary, Mr. Brodrick, replied that the government did not fear an investigation. It was true that in operations of magnitude of those in South Africa there must have been mistakes and shortcomings, and the war office would demand as its right investigation at the proper time. But British operations in all parts of the world would be paralyzed if an inquiry was forced now. Had the war office been in the condition in which Sir Henry Campbell-Bannerman left it, the war could not have been carried on for two months, owing to the shortage of guns, ammunition and all the supplies requisite for a campaign.

## THE REVIVAL.

A LARGE CROWD AT THE FIRST CHRISTIAN CHURCH LAST NIGHT.

The revival at the First Christian church is increasing in interest and the Rev. F. G. Tyrrell continues to draw large crowds. He preached last night on "Full-Grown Sin and Its Consequences," taking his text from James 1:15, "And the sin when it is full grown bringeth forth death." It was a strong and forcible sermon, and stressed the rapid growth of sin, gradually causing the paralysis or death of the will power, the judgment or power of discerning of right and wrong, and all the varied faculties.

Mr. Tyrrell is speaking this afternoon and will preach again tonight. The song service is excellent.

## A FIELD DAY.

Y. M. C. A. BOYS WILL PROBABLY HAVE ONE IN MAY.

The athletic committee met at the Y. M. C. A. last night and decided to hold a field day some time during the spring, probably in May, and the Hopkinsville boys will be challenged to compete with the local boys.

The field day will be held in Paducah and all classes of sports will be engaged in. Mr. Overton Brooks, who has charge of the athletic work at the local Y. M. C. A., will today write the boys of Hopkinsville relative to arranging the date.

The committee also decided to engage in all kinds of field sports this summer, which means that the "gym" work will not be featured during the summer as much as it has been. During the better months little is done in the "gym," and all the drills are taken out in the field.

Last night there were twenty-five members present at the class drill in the "gym." The work is being encouraged as much as possible and a new interest has been created.

## PLEASANT TRIP

MR. E. L. HENDRICK AND DAUGHTERS ENJOYING THEIR TRIP ABROAD.

Dr. I. B. Howell, the well known dentist, received a letter from Mr. E. L. Hendrick of the city, who is now in South Hampton, Mr. Hendrick left Paducah several weeks ago for Madisonville, where he met his daughters and started on a tour of the old country. He wrote the letter on March 4 and it was received here this morning. He reports a pleasant trip. The sea has been calm and the temperature delightful.

## IN REAL CITY STYLE.

Dr. Jeff Robertson has gone into the business in real city style. He has purchased a uniform for his office boy, Master Ercelle Robinson, with cap letters "M. D.," meaning "Doctor's Messenger." The suit resembles the regular messenger suit, only it is finished with gold braid and is much prettier than the average uniform.

## JUSTICE MOVES HIS OFFICE.

Justice Young is today moving into his new quarters, just opposite his present office in Legal Row. The office was formerly used by the late Justice Winchester, and has been remodeled and fitted up in elegant style. He will hereafter hold his court in that place.

Our job work can't be excelled.

## THE MOST IMPORTANT

Ship Subsidy Bill Is Passed By The Senate at Washington

The House Begins Considering The Rivers and Harbors Bill

MR. WACHTER DENIES PAPER STORY

Washington, March 18.—After prolonged debate the senate yesterday afternoon late passed the ship subsidy bill, the final vote upon the measure being 42 to 31. Senators Allison and Dooliver of Iowa, Spooner and Quarles of Wisconsin, and Proctor and Dillingham of Vermont, Republicans, voted against final passage, of the bill, and Senator McLauchlin of South Carolina voted for it. Some amendments to the bill were adopted, but they were all agreeable to those in charge of the measure, the friends of the bill voting down all other amendments. With the exception of amendments offered by Mr. Allison, and accepted by Mr. Frye, limiting the time of the operation of the contracts made under the provision of the bill to July 1, 1920, and providing that the amount of the expenditure under the mail subsidy paragraph should not at any time exceed \$8,000,000 annually, none of the amendments agreed to materially affect the bill as it was reported from the commerce committee.

The house has begun consideration of the river and harbor bill. Mr. Burton of Ohio made an extended speech yesterday in explanation of the measure, in the course of which he presented many interesting facts in connection with it. Several other members spoke briefly to the measure, among them being Mr. Bellamy of North Carolina, who protested against the treatment his state received. Mr. Foster of Illinois and Mr. Cochran of Missouri criticized the Boer war, criticizing the majority severely for failure to allow congress to express the sympathy of the American people with the struggling republics. At the conclusion of the proceedings, Mr. Wachter of Maryland denied a newspaper story to the effect that Speaker Henderson had attempted to influence his course on the question of Cuban reciprocity.

## THE WEATHER.

LAST NIGHT THERE WAS QUITE A DROP IN THE TEMPERATURE.

The mercury went to 16 degrees above zero last night, making the atmosphere quite cold considering the spring weather we had been enjoying for the past several days. This is not unusual for March, however. Observer Borneman's records show that last March, on the 6th, the mercury went to 15 above zero. The predictions are for continued cold tonight, and fair and warmer weather for tomorrow.

## RAILROAD EARNINGS.

THE REPORTS FOR THE FIRST WEEK IN MARCH SHOW INCREASES.

Nineteen roads show increases and eighteen decreases. Since July 1 the roads referred to above earned \$263,888,000, an increase of \$21,813,609 over the \$241,074,391 reported for the corresponding period last year. For the longer period thirty-four show increases and three decreases.

## EXCHANGES BURNED.

Considerable Loss By Fire at Obion, Tenn. This Morning.

Several Buildings Destroyed, Among Them The Telephone Office.

Fire destroyed several buildings at Obion, Tenn., this morning about 4 o'clock. The origin is unknown, but a grocery, dry goods store, residence and the telephone exchange were burned.

Manager Joyner of the Cumberland company this morning received a message from Union City stating that the exchange, with three large cables had been destroyed, cutting off a number of stations the other side of Obion. The loss and amount of insurance could not be learned, but it is certain that the damage will amount to several thousand dollars.

## FRIGHTENED AWAY.

THIEVES SHOT AT BY MR. B. S. BARNETT THIS MORNING.

Thieves attempted to enter the store of R. S. Barnett in Mechanicsburg this morning about 2 o'clock, but were frightened away by the proprietor, who was asleep in the building.

The thieves attempted entrance by means of taking out a window, but the noise awakened the sleeper and he procured his pistol and took several shots at them. He did not strike them, but they will steer clear of his place of business in the future. He could not see whether they were white or black.

## STOPPED IN TIME.

The Fast Train Was Not Derailed, But Was Delayed.

Tire of a "Blind Driver" Came Off Near Litchfield.

The passengers on the fast train due here at 8:45 a. m. from Louisville this morning consider themselves lucky. Near Litchfield the train came to a sudden stop, and when they got off and went to learn the trouble, found the big engine was derailed and headed off a six foot embankment, but not a passenger was hurt.

It seems the engineer felt the big tire come, and applied the air as quickly as possible. The train had almost stopped when the engine left the track, and its speed was not sufficient to derail any of the cars. Otherwise the engine would doubtless have plunged down the embankment and carried the train with it.

A freight train arrived and the engine was used to take the passenger to the nearest station, two miles away. Another engine was secured, and the train was delayed only a few hours.

## HE IS SAFE HERE.

## TWO MEETINGS HERE.

The State and Southwest Medical Meetings May Be Held Same Day.

A Move In That Direction Is Now on Foot—Entertainment Committee Meets Tonight

LOCAL DOCTORS FAVOR DOUBLE MEET

The annual meeting of the Southwestern Kentucky Medical society will be held in Paducah next month and it is suggested that the meeting be held the same days that the big state meeting will be in session. It has been suggested that the regular business and the election of officers be the only business transacted by the Southwestern Association and that all the efforts of the members be directed to entertain the state convention delegates. The idea has been favorably received and all the local doctors are in favor of the arrangement.

Tonight Chairman Reddick of the entertainment committee will hold a meeting in his office to arrange and plan for the entertainment of the visitors. There will be several out-of-town doctors present, among which will be Dr. Rozell of Mayfield. These two meetings will make one of the biggest medical sessions ever held in the state, as two associations will be in session, and the attendance unusually large.

Dr. Reddick is in receipt of a letter from Doctor Simmons of Adairville, Ky., asking for all the information that he can give relative to the water supply of the city, and what effect the water has on the health of the city, more particularly in regard to typhoid diseases. He is preparing a paper on this subject, "Water as a Disease Producing Agent," and his paper will no doubt be one of the features of the meet.

## QUARTERLY REPORT.

INSPECTOR HESSIG WILL PRESENT IT AT THE NEXT COUNCIL MEETING.

Dr. A. Hessig, the milk and meat inspector here, has prepared his report for the past three months and would have presented it to the council last night but was ill and could not bring it down. The following is the substance of the report:

There are 27 dairies now in operation, five having gone out of business and one having started up. Formerly there were 31. Those who have quit are Messrs. Plonkroy, Beyer, Pepper, Allcock and Wilson, while Mr. Ghoslen, of the Benton road, has started up.

There are 17 butchers doing a slaughtering business, and selling on the market. They have slaughtered 1700 cattle, 1400 hogs and 420 sheep during the past three months while the farmers who bring meat to the market have slaughtered 280 head of cattle, 100 hogs and 1800 hogs, showing that the farmers are big competitors of the butchers in the winter. The report will be presented at the next regular meeting of the council.

## TAX ON INSURANCE.

DEPARTMENT HOLDS PROCEEDS EXEMPT IN SOME CASES.

The Internal Revenue department has ruled that the proceeds from a life insurance policy, payable to the party insured, or his legal representative, is a part of decedent's estate. If payment to some one else is provided, the proceeds are not to be treated as a part of his estate, but are payable to the beneficiaries named in policy, and are not subject to legal tax.

It was also ruled regarding shipments to the Philippine Islands that all articles which may be exported free of duty or with benefit of drawback to foreign countries, may also be so exported to the Philippine Islands. A telegram prohibiting exportations free of internal revenue tax is required by the ruling.

The shoreman, Norman Ellis, through heroic work of Captain Elmer Mayo, of another stranded barge, the John C. Fitzpatrick, was rescued from the bottom of the upturned lifeboat. Among those lost was William H. Mack, of Cleveland, O., who was on the barge representing his company. The Boston Towing and Transportation company of that city, while Captain Marshall N. ## STATE FEDERATION.

CATHOLIC SOCIETIES WILL ORGANIZE AT LOUISVILLE. MARCH 20TH.

A meeting will be held at the Louisville Hotel March 20th to organize a Kentucky State Catholic Federation. The call has been issued by Dr. J. W. Fowler, a member of the executive committee of the State Federation.

The call sets forth the history and purpose of the American Federation, of which the Kentucky State Federation is to form a part. The American Federation is the outgrowth of a meeting of Catholic societies held in Cleveland two years ago. The object of the Federation is to unite all Catholic organizations "in a Federation for the maintenance of and defense of Catholic interests generally; to combat intolerance and ostracism because of religion." It is not to attack nor abridge the privileges of any religion, but to insist upon equal and just rights to Catholics as guaranteed by law. The American Federation is divided into state and into county federations, the last forming the unit. The autonomy of each society becoming a member of the Federation is guaranteed.

## RAIN AWAY.

Noble Gilbert, an eleven year old boy of Lexington, son of Dick Gilbert, was taken into custody this morning and invited to the city hall. His father has been looking for him for some time, and the boy says he has been enough of the world and is willing to return home. He got tired and decided he would run away, he says, and got as far as Paducah. His father had been trying to locate him for several days past, and he was found here. A telegram was sent this morning by Marshal Crow, notifying him of the boy's whereabouts, and he will likely be sent home.

## THE LIBRARY CONTEST.

Board of Trustees Agree to Pay Architect Five Percent

Plans Must Be Finished By April 10th—Bids Opened May 10th

THE WORK WILL BEGIN JUNE 1st

Four of the library trustees met last night in Mayor Yeiser's office at the city hall and closed a contract with Architect A. L. Lassiter for drawing the plans for the new public library building. Those present were: Former Mayor Ling, Mr. Charles Weille, Mr. Ed P. Noble and Mr. Henry Savage.

The trustees agreed to pay Mr. Lassiter five percent of the cost of the building for drawing the plans and specifications, and acting as superintendent of the building. The cost of the building will be \$30,000, which will make Mr. Lassiter's compensation \$1,500.

The contract specifies that the plans must be ready by April 10th, and the bids must all be in by May 10th.

It is expected that work proper will begin on the building about June 1st. There was no discord in the board, it is understood. Rev. Perryman is in Sturgis at present, and was the only trustee absent last night.

The work of the trustees last evening settles the matter of library plans. The next step is to draw the plans and specifications, and ask for bids on the work. The contract will probably be let about June 1st.

DAILY THOUGHT.

"The chief wisdom of an individual or of a community consists in knowing what portions of the past to retain and what to cast away."

BRYAN STILL ASPIRES.

(Globe-Democrat.)

It is evident that William J. Bryan will not give up the leadership in his party without a struggle. He wants to have a voice in the selection of the head of the congressional campaign committee of his party, and there is a chance that he will have some influence in this direction. His purpose is to shut out from that post every Democrat who was against the Chicago and Kansas City platforms, or whose position in regard to them was in any sort of doubt. This, of course, would not only exclude the Cleveland men, but it would turn down everybody of the Hill stripe who made a pretense of supporting the Bryan ticket, but who secretly rejoiced at its defeat.

Mr. Bryan is wise in one particular. He sees the importance of the congressional campaign of 1902, and he attempts to put his party in the best possible shape to wage a strong fight. The result of the election next November will furnish a reliable indication of the direction and the strength of the partisan currents. It is evident that the Democrats intend to make a serious struggle for the possession of the House of Representatives which is to be chosen this year. All this is just what would be expected of a party which has any semblance of sanity among its leaders. The canvass of 1902 will be a decidedly important affair.

Of course, Mr. Bryan's continued prominence in his party carries with it a portent of disaster. While he is at the front, or near it, there can be no approach to the Democratic harmony which has to come before that party will have any hope of success in a congressional or a presidential canvass. There is a broad gulf between the Cleveland and the Bryan sections of the Democracy, and the gulf is not going to narrow so long as Bryan retains his hold on any large section of his party. It is entirely certain that he retains this hold still. The chances are that he will have it throughout the approaching canvass. There is a possibility that he will retain it through the presidential campaign of 1904. Bryan's vitality and enthusiasm in the midst of calamities is a strange manifestation, but it undoubtedly gives a special interest to the politics of the day.

Kubelik, the boy violinist, and Padarewski, the pianist, have been creating great amusement in the musical world. It seems there is no lack of professional jealousy even among the greatest musicians, and some envious player started the report that Kubelik was paid only a paltry \$200 a night, which, in the eyes of such high-priced musicians, reduces one to the class of a "cheap man." Kubelik resented the insult by coming out in a published statement declaring that he received \$11,000 for four concerts at Chicago, and \$100,000 for the sixty-four concerts he has given in America. Interest then began to wane, but his next statement was that he had been paid \$100,000 for the last four days of his tour.

ANK en, donning coat and hat, started to leave, although the concert was but half over. The only thing that mollified him was a promise to put his name on Kubelik's program in still larger letters. Verily, all the lunatics are not in the asylum.

Gerónimo, the Apache chief who has been in captivity for the past fourteen years, wants to be free. He has petitioned the government to release him, and as he is eighty years old, his wish may be gratified. It is hoped he will not be so rash, if he gets loose, as to start some of his old tricks, and have the mauling sentimentalists flinging fits over his "struggle for liberty and independence," as they are doing in the case of the Filipinos and Boers. All that has to be done nowadays to arouse a certain class of people is to have a few outlaws rebel against their government, say they are fighting to be free, and use the most cowardly and bloodthirsty methods of warfare. Then mass meetings will indorse them, Democratic congressmen will intro-

The Boer war has cost the English

over a billion dollars, and it isn't

over yet. The Boers are hard to

whip, because they have a way of

fighting peculiar to themselves. In

the last battle, in which General

Meuthen was captured, they were

dressed in uniforms similar to those

of the British, wore, and even went

so far as to wear badges similar to those

of the English. As a result, when

they took the British by surprise the

latter were unable to distinguish them

from their own men. This is equally

as unique and enterprising as killing

English prisoners of war or shooting

into hospital corps wagons.

A bill that is destined to cut con-

promises relief from the imposition of

ensation for services rendered in se-

that while many of the bills present

just claims, many others are the result

of imposition on claimants who are in-

duced to pay money for the introduc-

tion of bills which stand no chance of

passage.

St. Louis, 13.0, fall.

Observations taken at 7 a. m. River, 28.2 on the gauge, a fall of 0.8 in last twenty-four hours. Weather, clear and colder. Temperature, 16 degrees.

Business on the wharf very good today. The Mary Stewart has laid up for repairs.

The Dick Fowler had a good trip to Cairo today.

The John K. Speed is due today from Cincinnati for New Orleans.

The Maude Kilgore is expected this evening from the lower Mississippi.

Captain J. F. Browninski, of Jopka, was in the city today enroute home from Louisville.

The Clyde is in with a good trip from Tennessee river. She leaves on return trip tomorrow 5 p. m.

The H. W. Buttrick is due early to-morrow morning from Clarksville and leaves at noon for Nashville.

Captain E. R. Dutt, the tie king, who has been in Evansville, was in the city today enroute to Jopka.

The Barrett barge sunk on the falls at Louisville by the Davis; will be saved but the 8,000 barrels of salt will be lost.

The John S. Hopkins from Evansville was pretty well fixed in business on her trip from Evansville and return today.

The Harry Brown, with a big tow of coal, which laid up at the head of the island yesterday, passed down about 8 o'clock this morning.

Coal men at Pittsburg are taking advantage of the good water to get out all of the coal possible, and yesterday the towboat Joe Walton, with seven barges, five barges and three flats, the Alice Brown, with 11 barges, two barges and one flat, and the Volunteer, with five barges and one barge, passed the dam, going south. It is believed by the coal men that the present weather will serve to make stationary the present stage, and permit of additional shipments south, which the coal men are so anxious for.

Officials of the Pittsburg Coal company deny positively that the Monongahela River Consolidated Coal and Coke company has been purchased by them or that negotiations are under way for the purchase. The story probably arose from the sale of 1,000,000 tons of run of the mine coal by the Monongahela company to F. M. Osborne, formerly president of the Pittsburg company. This deal was closed last week and provides for the delivery of the coal this year at less than \$1 per ton. The coal will be secured from those mines of the river companies which have both rail and river facilities.

The state of Kentucky has furnished to the River Marine Service more pioneer and successful steamboat men than any other city and state in the union, and it is somewhat of a remarkable fact that the most famous and successful steamboat owners and commanders on the lower Mississippi river, even to this day, are either Louisville men or Kentuckians, says the Courier-Journal. There are in this city now living men, who, retired from the service years ago, began their river life before the days of steamboats, young, stout, healthy fellows, who "heaved on the pincers" on flatboats from this city to New Orleans, and walked back. As steamboats made their appearance these young men would procure positions on them, and by the watchfulness and faithfulness they would get to be mates, carpenters, pilots, engineers, captains or owners, and it is that class of young men, the pioneer boatmen of the Ohio and Mississippi rivers, who are now enjoying

At the Price of Suffering.  
Woman on her way to semi-invalidism caused by pregnancy suffers much pain and terror. Ignorance prompts her to suffer alone in silence, and remain in the dark as to the true cause—her blood.  
Mother's Friend takes the doctor's place at her side, and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application over the region of the breast and above the abdomen, throughout pregnancy, will enable her to undergo the period of gestation in a cheerful mood and not undisturbed.

is a Liniment, and for external use only. It is colorless and will not stain women's pretty fingers. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need send only to a drug store and for \$1.00 secure the price could be remedied.  
Sweet motherly satisfaction and healthy babies are the result of the use of Mother's Friend.

DIDN'T LIKE IT.

Barlow and Wilson's minstrels played here to a small house last night

and the performance was very unsatisfactory considering the first class performances that have been given at The Kentucky by other minstrel troupes this season. Many left before the performance was over.

Abolish Jackson City.

The famous suburb which served as an outlet of the tough element of Washington is about to be abolished. It is just across the Long Bridge in Virginia and out of the jurisdiction of the federal government. All efforts to suppress it have been in vain, and it has been the nightly scene of unrestrained lawlessness, disorder and crime. The Pennsylvania Railroad company has bought up the land on which the vicious resorts of Jackson City stand, and these places will be torn down to make room for the new bridge across the river. When the owners found that there was a demand for their property they advanced the price, and for some of these resorts the Pennsylvania Railroad paid enormous sums. The company intends to wipe out Jackson City.—Detroit Free Press.

A Modern Rheumatoid.

Spino Lones, the young shepherd who won the footrace from Marathon to Athens at the Olympian games in 1890, is regarded as a modern Pheidippides by his fellow-townsmen, and they have shown their appreciation of the honor which he has brought to Marathon by giving him the privilege of supplying the Athenian kitchens with Marathon water. The water supply of the Greek capital should be fairly good, but as the conduits are open and the reservoirs not very carefully guarded, it is subject to contamination. Lones, therefore, finds a brisk demand for the water which he brings every morning in barrels from Marathon.

### BANNER SALVE

the most healing salve in the world.

Talking at a Long Distance.

Eighteen miles is said to be the longest distance on record at which a man's voice has been heard. This occurred in the Grand canyon of the Colorado, where one man shouting the name "Bob" at one end, his voice was plainly heard at the other end which is eighteen miles away. Dr. Young records that at Gibraltar the human voice has been heard at a distance of ten miles.

### The Horses of Russia.

A French writer asserts that Russia contains 32,000,000 horses of various breeds, from the tarpan, the singular wild horse of Turkestan, to the thoroughbred Arab. Perhaps the most interesting are the Kirghiz and Kalmauk horses, the useful cavalry animals of the Don, the unequalled pack horses of the Altai and the small but serviceable breed of Finland. Extremes of temperature and the hardships of a nomadic existence in the most merciless of climates combine to make the Kirghiz among the hardest horses on earth. All winter they have to find a bare subsistence on roots beneath the snow and the enormous mortality in these wanderings exercises a continuous process of selection. Fast and long racing are the chief diversions of these rough tribesmen and even their courtship is pursued in the saddle, every marriageable maiden, aged no more than 14 years, having to be chased on horseback and transferred to the saddle of her wooer before she is his legitimate bride.
